INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Township of Schaumburg
Hoffman Estates, Illinois

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, and each major fund of Township of Schaumburg, Hoffman Estates, Illinois, as of and for the year ended February 29, 2016, and the related notes to the financial statements, which collectively comprise the Township's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, and each major fund of the Township of Schaumburg, as of February 29, 2016, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note 11 to the financial statements, in 2016 the Township adopted new accounting guidance, *GASB Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit for the year ended February 29, 2016 was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township's basic financial statements. The supplementary information as listed in the table of contents for the year ended February 29, 2016 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements for the year ended February 29, 2016, and certain additional procedures, including comparing and recording such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information as listed in the table of contents are fairly stated in all material respects, in relation to the basic financial statements as a whole for the year ended February 29, 2016.

MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED FEBRUARY 29, 2016**

The Township Supervisor, Town Clerk, Highway Commissioner, the Town Board of Trustees and the employees (management) offer the readers of Township of Schaumburg's financial statements this narrative discussion and analysis of its financial activities for the fiscal year ended February 29, 2016.

This discussion and analysis is designed to:

1. Assist the reader in focusing on significant financial issues,
2. Provide an overview of the Township's financial activity,
3. Identify changes in the Township's financial position (its ability to cope with the next and subsequent year challenges),
4. Identify any material deviations from the financial plan (the approved budgets), and
5. Identify individual fund issues or concerns.

Since Management's Discussion and Analysis (MD&A) is designed to focus on the current year's activities, resulting changes and currently known facts, please read it in conjunction with the Township's financial statements beginning on page 12.

Financial Highlights

Financial highlights of the Town Fund, General Assistance Fund and the Road & Bridge Fund are summarized as follows:

Town Fund

Property taxes increased \$74,297 from \$4,444,588 to \$4,518,885.

Road repair and resurfacing was up \$35,773 from \$104,637 to \$140,410.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Township of Schaumburg's basic financial statements. The Township's basic financial statements include three components:

1. Government-wide financial statements, which present financial information on the Township as a whole;
2. Fund financial statements, which present financial information on each of the Township's major funds; and
3. Notes to the financial statements, which provide additional information concerning both of the above types of financial statements to assist the reader's understanding.

This report also contains other supplementary information in addition to the basic financial statements.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Township's finances in a manner similar to a private sector business.

The Statement of Net Position presents information on all of the Township's assets and liabilities, with the difference between the two reported as Net Position. Over time, increases and decreases in net position may serve as a useful indicator of whether the Township's financial position is improving or deteriorating. The focus of the Statement of Net Position is designed to be similar to bottom-line results for the Township and its governmental activities. This statement combines and consolidates governmental funds current financial resources with capital assets and long-term obligations using the accrual basis of accounting and economic resources measurement focus.

The Statement of Activities is focused on both the gross and net cost of various activities which are supported, by the Township's general taxes and other resources. This focus is intended to summarize and simplify the reader's analysis of the cost of various governmental services.

The Governmental Activities reflect the Township's basic services including assistance in assessment of property values, assistance to the poor and indigent, maintenance and improvement of roads and bridges, and administration. Property taxes finance the majority of these services.

The Business-type Activities reflect private sector type operations where the fee for the service typically covers all or most all of the cost of operations including depreciation.

**TOWNSHIP OF SCHAUMBURG
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED FEBRUARY 29, 2016**

Fund Financial Statements

Traditional users of governmental financial statements will find the Fund Financial Statements familiar. However, they focus on the major funds rather than grouping the financial statements by fund types.

The Governmental Major Fund presentation is prepared on a sources and uses of liquid resources basis. This is the manner in which the Budget and Appropriation Ordinance is typically developed. The flow and availability of liquid resources is a clear and appropriate focus for any analysis of a government. Funds are established for various purposes and the Fund Financial Statements allow the demonstration of sources and uses and/or budgeting compliance associated therewith.

Funds are accounting devices the Township uses to keep track of specific resources of funding and spending on particular programs. Some funds are required by State law; others may be required by bond covenants, as a condition of receiving a grant or other contractual agreement. Further, the Township may establish funds to control and manage money for particular purposes or to show that it is properly using certain revenues.

The Fund Financial Statements also allow the Township to report on its administration of its fiduciary fund: the Pension Fund. While these funds represent trust and agency responsibilities of the Township, the assets are restricted in purpose and do not represent discretionary assets of the government. Therefore, this fund is not presented as part of the Governmental Financial Statements.

Infrastructure Assets

Historically, the Township's largest group of assets (infrastructure, buildings, equipment, vehicles, etc.) have not been reported nor depreciated in governmental financial statements. GASB Statement 34 requires that these assets be valued and reported within the Governmental column of the Government-wide Statements. Additionally, the government must depreciate these assets over their estimated useful lives.

Notes to Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the Government-wide and Fund Financial Statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain Required Supplementary Information. A budgetary comparison has been provided for the Major Funds as required supplementary information.

FINANCIAL ANALYSIS OF THE TOWNSHIP AS A WHOLE

Normal Impacts

There are six basic (normal) transactions that will affect the comparability of the Statement of Net Position summary presentation.

Net Results for Activities - which will impact (increase/decrease) current assets and unrestricted net position.

Borrowing for Capital - which will increase current assets and long-term debt.

Spending Borrowed Proceeds on New Capital - which will reduce current assets and increase capital assets. There is a second impact, an increase in the amount invested in capital assets and an increase in the related net debt. This will not change the net investment in capital assets.

Spending of Non-borrowed Current Assets on New Capital - which will (a) reduce current assets and increase capital assets and (b) reduce unrestricted net position and increase net investment in capital assets.

**TOWNSHIP OF SCHAUMBURG
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED FEBRUARY 29, 2016**

Principal Payment on Debt - which will (a) reduce current assets and reduce long-term debt and (b) reduce unrestricted net position and increase net investment in capital assets.

Reduction of Capital Assets Through Depreciation - which will reduce capital assets and net investment in capital assets.

Current Year Impacts

The Township of Schaumburg's combined net position of \$8,171,653 was up \$400 over the \$8,171,253 restated from a year ago by \$277,281 for unrecorded pensions.

Total assets were up \$411,957. Cash and investments were up \$434,554, receivables were down \$28,065 and capital assets, net of accumulated depreciation, were up \$5,468.

At the same time, total liabilities and deferred inflows increased \$579,417. Unavailable property tax revenues increased \$61,438 while accounts payable and accrued expenses were up \$9,255. Amounts due to other governments and funds increased \$136. Non-current liabilities due in over one year increased \$234,338.

Revenues

Economic Condition - Can reflect a declining, stable or growing economic environment and has a substantial impact on certain revenues as well as public spending habits for construction and volumes of construction.

Increase/Decrease in Township Approved Rates - While certain tax rates are set by statute, the Township Board has significant authority to impose and periodically increase/decrease some rates.

Changing Patterns in Intergovernmental and Grant Revenue (both recurring and non-recurring) - Certain recurring revenues (state shared revenues, etc.) may experience significant changes periodically while non-recurring (or one-time) grants are less predictable and often distorting in their impact on year-to-year comparisons.

Market Impacts on Investment Income - The Township's investment portfolio is managed using a shorter average maturity than many governments, and the market condition may cause investment income to fluctuate more than alternative longer-term options.

Expenses

Introduction of New Programs - Within the functional expense categories (Human Services, Financial Assistance, Roads, Police Protection, etc.) individual programs may be added or discontinued to meet changing community needs.

Increase in Authorized Personnel - Changes in service demand may cause the Township Board to increase/decrease authorized staffing.

Salary Increases (annual adjustments and merit) - The ability to attract and retain human and intellectual resources requires the Township to strive to approach a competitive salary range position in the marketplace.

Inflation - While overall inflation appears to be reasonably modest; the Township is a major consumer of certain commodities such as supplies, fuels and parts. Some functions may experience unusual commodity specific increases.

Current Year Impacts

Governmental Activities

Revenues for the 2015-2016 fiscal year totaled \$6,077,600, an increase of \$188,502 over the \$5,889,098 reported a year ago. Taxes were up \$202,355. Other income increased by \$29,288. Earnings from replacement taxes, interest, rents, grants, and other were down \$43,141

The Township's expenses for governmental activities were \$6,077,200, up \$831,342 from \$5,245,858 in 2015. The general governmental activities were up \$727,661. Human Services and Public Welfare increased \$209,308. Home Relief expenses decreased \$42,708. Roads and Bridges decreased \$80,679. Capital Outlay and Depreciation expense were up \$17,760.

Summary and Highlights

- The cost of all Governmental Activities for the year was \$6,077,200.
- Some of the cost was financed by charges for services of \$93,253.
- The Township's net costs (\$5,875,130) were financed by property taxes of \$5,765,957.
- Other governmental revenues totaled \$218,390.

FINANCIAL ANALYSIS OF THE TOWNSHIP'S FUNDS

The fiscal year 2015-2016 was a good year for the Township. The fund balances were up \$335,660. The Town Fund balance was up \$136,773 to \$3,537,694. The General Assistance Fund balance was up \$89,010 to \$565,371. The Road and Bridge Fund balance was up \$109,877 to \$493,529 and the Debt Services Fund balance was zero.

Town Fund

The Town Fund balance increased \$136,773. This was a 4.02% increase in the fund balance and \$219,382 less than the \$356,155 increase reported in 2015. Fund revenues of \$4,716,115 were \$116,276 more than in 2015, while expenditures in 2016 were \$4,593,842, \$270,933 more than 2015.

General Assistance

The General Assistance Fund balance increased \$89,010. This was a 18.7% increase in the fund balance. Revenues were up \$106,033 to \$718,034 in 2016. Expenses decreased \$20,965 from \$649,989 in 2015 to \$629,024 in 2016.

Road and Bridge

Economic Factors

The Township of Schaumburg depends mainly on property tax revenues and charges for services. Non-tax revenues are now down to 3.1% of our income. The cost of running the Township and the providing of services to our clients continues to rise. While tax increases are limited to the increase in the consumer price index. And taxpayers are concerned about the amount of real estate taxes they are paying. For that reason, the Township must find ways to continue to help residents while holding the line on expenses.

Requests for Information

This financial report is designed to provide a general overview of the Township's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Supervisor, Township of Schaumburg, One Illinois Blvd., Hoffman Estates, IL 60169.

When capital assets that are to be used in governmental activities are purchased or constructed, the resources expended for those assets are reported as expenditures in governmental funds. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. As a result, fund balance decreases by the amount of financial resources expended, whereas net assets decrease by the amount of depreciation expense charged for the year. Capital outlays for items below the Township's capitalization policy limits and repairs and maintenance are expensed.

TOWNSHIP OF SCHAUMBURG
NOTES TO BASIC FINANCIAL STATEMENTS
FEBRUARY 29, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Township of Schaumburg, Hoffman Estates, Illinois (the "Township") was incorporated on April 2, 1850. The Township operates under the Township Act (60 ILCS) and the Revenue Code (35 ILCS) of the *Illinois Compiled Statutes* (ILCS). The Township provides the following services as authorized by its charter: maintenance of roads in the unincorporated area, senior and disabled services, mental health services including individual and family counseling, general assistance, property tax related matters and general administrative services.

The financial statements of the Township have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to governmental units (hereinafter referred to as generally accepted accounting principles or GAAP). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Township's accounting policies are described below.

A. Financial Reporting Entity

The financial reporting entity consists of the primary government, as well as its component units, which are legally separate organizations for which the elected officials of the primary government are financially accountable. Financial accountability is defined as:

- 1) Appointment of a voting majority of the component unit's board, and either a) the ability to impose will by the primary government, or b) the possibility that the component unit will provide a financial benefit to, or impose a financial burden on the primary government; or
- 2) Fiscal dependency on the primary government.

The Township has a separately elected Board, the power to levy taxes, the authorization to expend funds, the responsibility to designate management, the ability to prepare and modify the annual budget and the authority to issue debt. Therefore, the Township is not included as a component unit of any other entity.

Discretely Presented Component Unit

The Schaumburg Township Foundation Fund has been included as a discretely presented component unit of the Township. The component unit column in the basic financial statements includes the financial data of the Schaumburg Township Foundation Fund. The component unit is reported in a separate column to emphasize that it is legally separate from the Township.

B. Basis of Presentation

The Township's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the primary government and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. (The Township of Schaumburg has no business-type activities for which a separate accounting is required). Likewise, the Township, as the primary government, is reported separately from certain legally separate component units for which the primary government is financially accountable.

TOWNSHIP OF SCHAUMBURG
NOTES TO BASIC FINANCIAL STATEMENTS
FEBRUARY 29, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Government Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds, each of which is considered a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues and expenditures. Funds are organized into three major categories: governmental, proprietary, and fiduciary. (There are no proprietary funds within the Township).

C. Measurement Focus and Basis of Accounting

Government-wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Government Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Township considers revenues to be available if they are collected within thirty days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The funds of the Township are described below:

Governmental Funds

General Fund - The general fund is the Township's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds – Special revenue funds are used to account for the proceeds of specific revenue sources (other than those accounted for in a Debt Service Fund or Capital Projects Fund) that are legally restricted to expenditures for specific purposes.

Special revenue funds of Schaumburg Township include the General Assistance Fund and the Road and Bridge Fund. The General Assistance Fund was established to assist in providing community services such as senior and disabled services, individual and family counseling, and other general assistance. The Road and Bridge Fund was established for the maintenance of roads in unincorporated areas.

TOWNSHIP OF SCHAUMBURG
NOTES TO BASIC FINANCIAL STATEMENTS
FEBRUARY 29, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Fiduciary Funds (not included in governmental-wide statements)

Fiduciary Funds – Fiduciary funds are used to account for assets held by the Township in a trust capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. The fiduciary funds were created to fund the Schaumburg Township Employee Pension Plan and the Schaumburg Township 403(B) Employer Matching Retirement Plan.

Major and Nonmajor Funds

An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Township, is considered by the Township to be major, or meets the following criteria:

- 1) Total assets, liabilities, revenues, or expenditures of that individual governmental or proprietary fund are at least ten percent of the corresponding total for all funds of that category or type; and
- 2) Total assets, liabilities, revenues, or expenditures of the individual governmental or proprietary fund are at least five percent of the corresponding total for all governmental and proprietary funds combined.

The Township has classified all funds as major.

The funds classified as major are as follows:

Town Fund - The general operating fund of the Township. It is used to account for all financial resources except those required to be accounted for in another fund.

General Assistance Fund - A special revenue fund used to account for the Township's general assistance program.

Road and Bridge Fund - A special revenue fund used to account for the maintenance of roads within the Township.

D. Net Position/Fund Balance Reporting

Government-Wide Reporting

For the Government-Wide Financial Statements, net positions are reported as follows:

Net investment in capital assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets less any unspent debt proceeds.

Restricted net position – Consists of net positions with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or, 2) law through constitutional provisions or enabling legislation. The Township's restricted net position consists of \$565,371 in the General Assistance Fund and \$493,529 in the Road and Bridge Fund.

Unrestricted net position – Consists of all other net positions that do not meet the definition of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is the Township's policy to use restricted resources first, and then unrestricted resources as they are needed.

TOWNSHIP OF SCHAUMBURG
NOTES TO BASIC FINANCIAL STATEMENTS
FEBRUARY 29, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Governmental Fund Balances

Governmental fund balances are to be classified into five major classifications; Nonspendable, Restricted, Committed, Assigned and Unassigned:

Nonspendable – The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash, for example inventories and prepaid amounts.

Restricted – Restricted fund balances are restricted when constraints are placed on their use by either (a) external creditors, grantors, contributors, or laws or regulations of other governments or (b) law through constitutional provisions or enabling legislation.

Committed – Committed fund balances are amounts that can only be used for specific purposes as a result of constraints of the Board of Trustees. Committed amounts cannot be used for any other purpose unless the Board of Trustees removes those constraints by taking the same type of action (e.g., legislation, resolution, ordinance). Committed fund balances differ from restricted balances because the constraints on their use do not come from outside parties, constitutional provisions, or enabling legislation.

Assigned – Assigned fund balances are amounts that are constrained by the Township’s intent to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by an appointed body (e.g., a budget or finance committee) or official to which the Board of Trustees has delegated the authority to assign, modify or rescind amounts to be used for specific purposes.

Unassigned – Unassigned fund balance is the residual classification for the Town Fund. This classification represents the Town Fund balance that has not been assigned to other funds, and that has not been restricted, committed or assigned to specific purposes within the Town Fund.

The Township permits funds to be expended in the following order: Restricted, Committed, Assigned and Unassigned.

E. Cash and Cash Equivalents and Investments

The Township’s cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Investments with a maturity of one year or less when purchased and all non-negotiable certificates of deposit are stated at cost or amortized cost. Investments with a maturity greater than one year when purchased are reported at fair value. All investments of the pension trust fund, regardless of length of maturity, are reported at fair value. Fair value is based on published market quotes as of February 29, 2016.

Under Illinois law, the Township is restricted to investing funds in specified types of investment instruments. The following generally represent the types of instruments allowable by State Law:

1. Securities issued or guaranteed by the United States.
2. Interest-bearing accounts of bank and savings and loans insured up to \$250,000 by the Federal Deposit Insurance Corporation.
3. Short-term obligations (less than 180 days) of U.S. corporations with assets over \$500 million rated in the highest classification by at least two rating agencies.
4. Insured accounts of an Illinois credit union chartered under United States or Illinois law.

TOWNSHIP OF SCHAUMBURG
NOTES TO BASIC FINANCIAL STATEMENTS
FEBRUARY 29, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

5. Money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these types of obligations.
6. The Illinois Funds.

In addition, the Pension Trust Fund is also permitted to invest in the following instruments:

1. Repurchase agreements, which meet instrument transaction requirements of Illinois law.
2. General accounts of Illinois-licensed life insurance companies.
3. Separate accounts of Illinois-licensed insurance companies invested in stocks, bonds and real estate, limited to 10% of the funds' investments and mutual funds limited to 35% of the funds' investments.
4. Bonds issued by the State of Illinois, or any county, city, township, municipal corporation, incorporated town or school district in Illinois.
5. Tax anticipation warrants issued by any city, township, incorporated town or fire protection district in Illinois.
6. Mutual funds.

F. Receivables

Receivables consist primarily of property taxes, intergovernmental and other miscellaneous amounts due the Township.

G. Employees' Deferred Compensation Plan

The Township offers employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all employees, permits deferral of a portion of compensation until future years. The deferred amount is not available to employees until termination, retirement, death or unforeseeable emergency. The assets have been placed in trust for the benefit of the employees and, accordingly, are not reported in these financial statements.

H. Vacation and Compensation Time Liability

Township employees are given vacation days to take by the end of the annual anniversary date of hire that they may carry over to the next year with a maximum of twice that of which they are entitled to in a single year. Terminated employees are reimbursed for any accumulated unpaid vacation days. The amount of such accumulated vacation benefits at February 29, 2016 is \$126,530.

Compensation time accrued at February 29, 2016 is \$3,941.

I. Capital Assets

In government-wide financial statements, fixed assets are accounted for as capital assets. All fixed assets that exceed a capitalization threshold are capitalized and valued at historical cost or estimated historical cost if actual is unavailable, except for donated fixed assets that are recorded at their estimated fair value at the date of donation. The Township capitalizes assets purchased or acquired with an original cost of \$5,000 or more for equipment and transportation equipment, and \$20,000 or more for land, buildings and improvements. Prior to March 1, 2004, infrastructure assets were not capitalized. Depreciation of all exhaustible fixed assets is recorded as an allocation in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over estimated useful lives using the straight-line method of depreciation.

TOWNSHIP OF SCHAUMBURG
 NOTES TO BASIC FINANCIAL STATEMENTS
 FEBRUARY 29, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of an asset are not capitalized.

Buildings and improvements and furniture and equipment of the Township are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and improvements	10-40
Infrastructure	20
Equipment and vehicles	5-10

In the fund financial statements, fixed assets are accounted for as capital outlay expenditures upon acquisition. No depreciation is recorded in the fund financial statements.

J. Long-term Debt

The accounting treatment of long-term debt depends on whether they are reported in the government-wide or fund financial statements. All long-term debt to be repaid from governmental resources is reported as liabilities in the government-wide statements. The long-term debt for government funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payments of principal and interest reported as expenditures.

K. Comparative Data and Reclassifications

Comparative totals for the prior year have not been presented in the accompanying financial statements.

L. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Township has one item that qualifies for this category—pensions (\$445,141) reported in the government-wide statement of position. This result is from the differences between expected and actual experience, the net differences projected and actual investment earnings on plan investments, changes of assumptions, and changes in proportion and differences between contributions and proportion share of contributions.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Township has one item which arises only under a modified accrual basis of accounting which qualifies for reporting in this category—unavailable revenue (\$5,880,610) reported in both the government-wide statement of position and in the governmental funds balance sheet. The item for unavailable revenue is from property taxes. This amount is deferred and recognized as an inflow of resources in the period that the amounts become available.

M. Eliminations and Reclassifications

In the process of aggregating data for the government-wide financial statements, some amounts reported as interfund activity and balances were eliminated or reclassified.

TOWNSHIP OF SCHAUMBURG
NOTES TO BASIC FINANCIAL STATEMENTS
FEBRUARY 29, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

N. Program Revenues

Amounts reported as program revenues include 1) Services provided and fees and 2) Grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. All taxes, including those dedicated for specific purposes, are reported as general revenues rather as program revenues.

O. Personal Property Replacement Taxes

Personal property replacement tax revenues are allocated across funds and to other governmental entities at the same rate since inception in the 1970's. At the time, allocation was based on the size of the towns and library in relation to the rest of the area.

P. Property Taxes

The Township must file its tax levy ordinance by the last Tuesday in December of each year. The 2015 levy was adopted December 16, 2015. The Township's property tax is levied each calendar year on all taxable real property located in the Township.

The County Assessor is responsible for the assessment of all taxable real property within Cook County (the County), except for certain railroad property which is assessed directly by the State. Reassessments occur based on market conditions. The County Clerk computes the annual tax for each parcel of real property and prepares tax books used by the County Collector as the basis for issuing tax bills to all taxpayers in the County.

Property taxes are collected by the County Collector and are submitted to the County Treasurer, who remits to the units their respective shares of the collections. Taxes levied in one year become due and payable in two installments on or about March 1 and August 1 during the following year.

In the government-wide financial statements revenue is recognized based on the period that the levy is intended to finance. Based upon collection histories, the Township has provided an allowance for uncollectible real property taxes equal to 1.0% of the current extension. All property taxes receivable over one year old have been written off.

NOTE 2 – CASH AND CASH EQUIVALENTS AND INVESTMENTS

A. Township Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk

Cash and investments are held separately by several of the Township's funds. The Township invests these funds pursuant to an investment policy established by the Board of Trustees. Investments consist solely of certificates of deposit and Illinois Funds.

Custodial Credit Risk – Deposits. In the case of deposits, this is the risk that in the event of a bank failure, the government's deposits may not be returned to it. As of February 29, 2016, the carrying amount of the Township's deposits totaled \$5,004,947 excluding cash on hand, and the Township's bank balances totaled \$5,191,274. All deposits were covered by federal depository insurance or by collateral held by the Township or its agent in the Township's name. Cash on hand of \$1,300 has been excluded from the "Deposits and Investments" shown below.

Custodial Credit Risk – Investments. For an investment, this is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Township invests in certificates of deposit and money market accounts. As of February 29, 2016, the carrying amount and bank balances of the Township's investments totaled \$601,463. At February 29, 2016, investments in certificates of deposit were covered by federal depository insurance or by collateral held by the Township or its agent in the Township's name.

The Illinois Funds is an investment pool managed by the State of Illinois, Office of the Treasurer, which allows governments within the State to pool their funds for investment purposes. Investments in The Illinois Funds are valued at Illinois Fund's share price, which is the price at which the investment could be sold.

Annual financial audits for The Illinois Funds are available at the Illinois State Treasurer's website, www.treasurer.il.gov/programs/illinois-funds/annual-financial-audit.aspx.

Interest Rate Risk. The Fund limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for cash requirements for ongoing operations, while providing a reasonable rate of return based on the current market.

Credit Risk. Under Illinois law, the Township is restricted to investing funds in specified types of investment instruments. During the fiscal year ended February 29, 2016, the Township invested in certificates of deposit and The Illinois Funds with investment maturities as follows:

Investment Type	Fair Value	Investment Maturity Less Than One Year
Certificates of Deposit	\$ 497,638	\$ 497,638

B. Township Pension Plan Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk

Cash and investments are held separately for the Township's fiduciary funds - Pension Fund. The Township invests these funds pursuant to an investment policy established by the Board of Trustees. Investments consist of fixed income, mutual funds and equity securities.

Custodial Credit Risk – Deposits. In the case of deposits, this is the risk that in the event of a bank failure, the government's deposits may not be returned to it. As of February 29, 2016, the carrying amount of the Township's deposits and bank balances totaled \$320,086. Deposits of \$320,086 are not covered by federal depository insurance or by collateral.

Custodial Credit Risk – Investments. For an investment, this is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Township invests in fixed income, mutual funds and equity securities. As of February 29, 2016, the carrying amount and bank balances of the Township's investments totaled \$3,248,783. Deposits of \$3,248,783 are not covered by federal depository insurance or by collateral.

NOTE 4 – PROPERTY TAXES

The Township's property tax is levied each year on all taxable real property located in the Township on or before the last Tuesday in December. The 2015 Levy was passed by the Board on December 16, 2015. Property taxes attach as an enforceable lien on property as of January 1, of the Levy year, and are payable in two installments on approximately March 1 and August 1 of the year subsequent to the levy year. The District receives significant distributions of tax receipts approximately one month after these due dates. Taxes recorded on these financial statements are from the 2015 and 2014 tax levy years.

Short Term Debt/Operating Leases

The Township leases one vehicle from Pace, the Suburban Bus Division of the RTA, for use in the transportation of citizens. The total cost for the lease was \$1,200 for the year ended February 29, 2016. The Township has paid a security deposit of \$1,000 which, according to the terms of the lease, shall be returned to the Township upon return of the vehicle to Pace, provided the vehicle is returned in the same condition as when it was delivered to the Township.

NOTE 7 – INTERFUND RECEIVABLES/PAYABLES

Amounts due to and due from individual funds at February 29, 2016 are as follows:

<u>Fund</u>	<u>Payable</u>	<u>Receivable</u>
Town Fund	\$ 1,407	\$ -
General Assistance	-	1,407
Totals	\$ 1,407	\$ 1,407

The amount due to the General Assistance Fund from the Town Fund is \$1,407 of personal property replacement tax collected by the Town Fund but allocated to the General Assistance Fund. These interfund loans are expected to be repaid within one year.

NOTE 8 – EMPLOYEE RETIREMENT SYSTEM

The Township has two pension plans offered to its employees. It offers both a defined benefit plan and a defined contribution pension plan.

A. Defined Benefit Pension Plan

Plan Description

The Schaumburg Township Employee Pension Plan is a single-employer defined benefit plan administered by the Township. The defined benefit plan covers all officials and full-time and part-time employees of the Township with employment starting prior to March 1, 2010 regardless of age or the number of years of active service. Under the provisions of the plan, which are determined by the Township, the Township is required to contribute an amount necessary to finance the plan as actuarially determined by an enrolled actuary.

Employees Covered by Benefit Terms

As of February 29, 2016, the following employees were covered by the benefit terms:

February 29,	<u>2016</u>
Inactive plan members and beneficiaries currently receiving benefits	1
Inactive plan members entitled to but not yet receiving benefits	8
Active plan members	<u>37</u>
Total	<u>46</u>

NOTE 8 – EMPLOYEE RETIREMENT SYSTEM (CONT'D)

Contributions

The Township contributed \$424,400 to the plan in the current year. Employees are not required to contribute to the plan. The plan is financed on a pay-as-you-go basis. The plan does not issue separate financial statements. The accrued benefit is determined to be 1.675% of average compensation (the highest 5 consecutive years of pensionable earnings) multiplied by credited service to a maximum of 35 years.

Net Pension Liability

The employer's net pension liability was measured as of December 31, 2014. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The following are the methods and assumptions used to determine total pension liability at February 29, 2016:

- The **Actuarial Cost Method** used was Entry Age Cost Method.
- The **Asset Valuation Method** used was Market Value of Assets.
- The **Inflation Rate** was assumed to be 3.0%.
- **Salary Increases** were expected to be 3.5%.
- The **Investment Rate of Return** was assumed to be 7.0%.
- **Projected Retirement Age** was 65 years of age.
- The rates for **Mortality** were developed from the RP-2000 Mortality Table, projected to 2016 using scale AA 2016 IRS Mortality for Lump Sum Conversions specified in Code Section 417(e).
- For **Disabled Retirees**, no assumptions were made.
- The **long-term expected rate of return** on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These expected future real rates of return are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of February 29, 2016 are summarized in the following table:

<u>Asset Class</u>	<u>Portfolio Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed Income and Bond Funds	40%	2.00%
Stocks and Equity Mutual Funds	60%	5.00%
Cash	0%	0.00%
Total	100%

NOTE 8 – EMPLOYEE RETIREMENT SYSTEM (CONT'D)

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

B. Defined Contribution Plan

In addition, effective August 1, 2000, the Township established a single employer defined contribution pension plan (Plan), the Schaumburg Township 403(B) Employer Matching Retirement Plan. The Plan was established in accordance with Illinois Compiled Statutes, by the Township Board of Trustees.

All employees of the Township are eligible to participate in the Plan after completing one year of service and reaching the age of twenty-one (21). Employees can voluntarily elect to contribute to the Plan. The Township will contribute 40% of the amount deferred by an employee as an employer match, which is computed on the first \$8,000 of earnings to a maximum of \$3,200 per employee. Employees vest in the employer's contribution after three years. During the year, employees contributed \$205,878 to the Plan and the Township contributed \$61,422.

NOTE 9 – RISK MANAGEMENT

The Township is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; illnesses of employees; and natural disasters. The Township purchases third-party indemnity insurance for general liability, property casualty, workers' compensation and health. The policies are in effect from March 1, 2015 to March 1, 2016. The policies limit the Township's exposure to deductibles of \$100 - \$1,000 per occurrence depending on the coverage. Settled claims have not exceeded this commercial coverage in the current fiscal year or in the prior fiscal year.

NOTE 10 – COMPONENT UNIT – SCHAUMBURG TOWNSHIP FOUNDATION FUND

The Schaumburg Township Foundation Fund was established as an intermediary through whom constituents are able to donate tax-deductible contributions to the Township.

During the year ended February 29, 2016, the Schaumburg Township Foundation Fund transferred \$18,084 of contributions to the Township to support the food pantry program.

A. Summary of Significant Accounting Policies

1) Measurement Focus, Basis of Accounting and Financial Statement Presentation

The Schaumburg Township Foundation Fund is reported as a discretely presented component unit of the Township on the government-wide financial statements, which are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows.

2) Net Position

The Schaumburg Township Foundation Fund is reported on the government-wide financial statements on which net positions are reported as follows:

Net investment in capital assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets less any unspent debt proceeds.

TOWNSHIP OF SCHAUMBURG
NOTES TO BASIC FINANCIAL STATEMENTS
FEBRUARY 29, 2016

NOTE 10 – COMPONENT UNIT – SCHAUMBURG TOWNSHIP FOUNDATION FUND (CONT'D)

Restricted net position – Consists of net positions with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or, 2) law through constitutional provisions or enabling legislation.

Unrestricted net position – Consists of all other net positions that do not meet the definition of “restricted” or “net investment in capital assets.”

When both restricted and unrestricted resources are available for use, it is the Schaumburg Township Foundation Fund’s policy to use restricted resources first, and then unrestricted resources as they are needed.

B. Deposits

In accordance with the Schaumburg Township Foundation Fund investment policy, the Foundation Fund’s monetary assets may be placed in all instruments permitted by the Illinois Public Funds Investment Act. This act permits deposits and investments in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services, and The Illinois Funds. At year-end, the carrying amount of the Foundation Fund totaled \$12,090 and the bank balance totaled \$12,090. The bank balance was covered by federal depository insurance.

For additional information regarding the Schaumburg Township Foundation Fund, send inquiries to the Schaumburg Township Foundation Fund, One Illinois Blvd., Hoffman Estates, IL 60169 or call (847) 884-0030.

NOTE 11 – CHANGE IN ACCOUNTING PRINCIPLE

During the year ended February 29, 2016, the Township adopted new accounting guidance:

- *GASB Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*

The Net Position at February 28, 2015 was increased by \$277,281, due to previously unrecorded pensions – deferred outflows of resources (\$551,531) and net pension liability (\$274,250).

NOTE 12 – SUBSEQUENT EVENTS

Subsequent events are events or transactions that occur after the balance sheet date but before the financial statements are issued or available to be issued. There are two types of subsequent events: recognized (events that relate to conditions present at the balance sheet date) and non-recognized (events or conditions that did not exist at the balance sheet date but arose after that date).

There have been no recognized or non-recognized subsequent events that have occurred between February 29, 2016, and the date of this audit report requiring disclosure in the financial statements.

TOWNSHIP OF SCHAUMBURG
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FEBRUARY 29, 2016

NOTE 1 – BUDGETS AND BUDGETARY ACCOUNTING

The Township follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Beginning in October, the Department Managers submit to the Board of Trustees a proposed operating budget for the fiscal year commencing the following March 1. The operating budget includes proposed expenditures for the General Fund and the Special Revenue Funds.
2. Public hearings are conducted to obtain taxpayer comments.
3. At the Township Board of Trustees' meeting during the first quarter of each fiscal year, the budget is legally enacted.
4. The adopted budget is forwarded to the Cook County Clerk as required by law.
5. The level of budgetary control (that is, the level at which changes or amendments must be approved by the Board) is established at the department level. Any changes or amendments to the budget of any fund must be approved by the Board of Trustees. Revisions made by the Board of Trustees to the current year's budget were in accordance with legal requirements (not to exceed 10% of a total fund current year's budget) and are reflected within the budgetary data included in the general-purpose financial statements.
6. Expenditures may not legally exceed budgeted appropriations at the department level. All annual appropriations lapse at fiscal year end.

Township budgets are prepared on a basis of accounting consistent with accounting principles generally accepted in the United States (GAAP). The budget was adopted April 22, 2015. Subsequent approved line item changes were made after passage.

NOTE 2 – EXPENDITURES IN EXCESS OF BUDGET

During the year ended February 29, 2016, actual expenditures disbursed did not exceed budgeted expenditures across all funds.
